What's in the Box

1

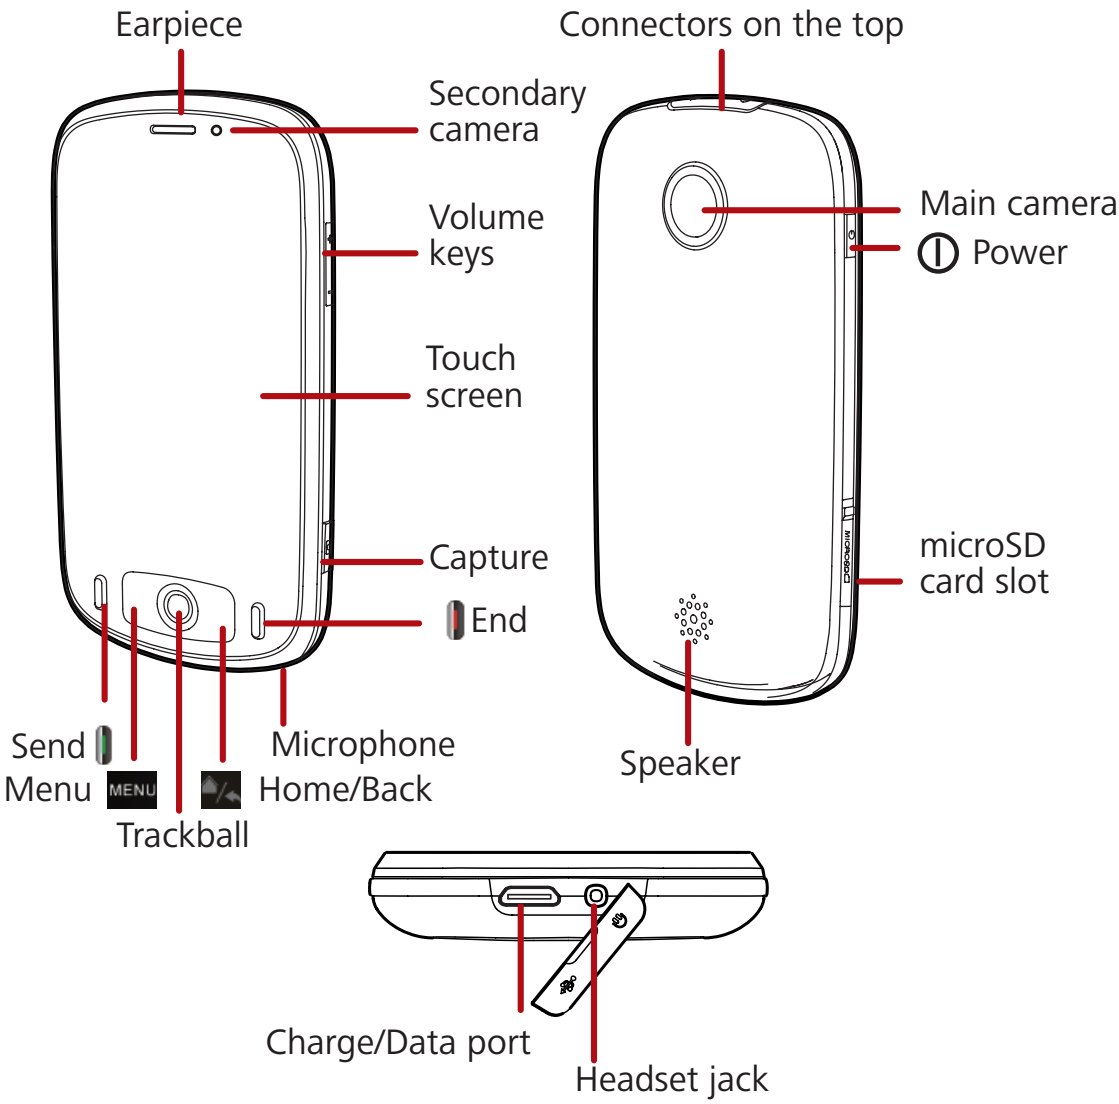
Your phone box contains the following items:

- Mobile phone
- Battery
- Charger
- USB cable
- Headset
- Quick start guide
- Safty information

For more information about how to use your phone, refer to the User Guide on the phone.
To read the User Guide, do as follows:
1. Connect your phone to a PC.
2. On the PC, choose Start > My Computer.
3. Double-click the Huawei logo, and then select User Guide.

Getting to Know Your Phone

2

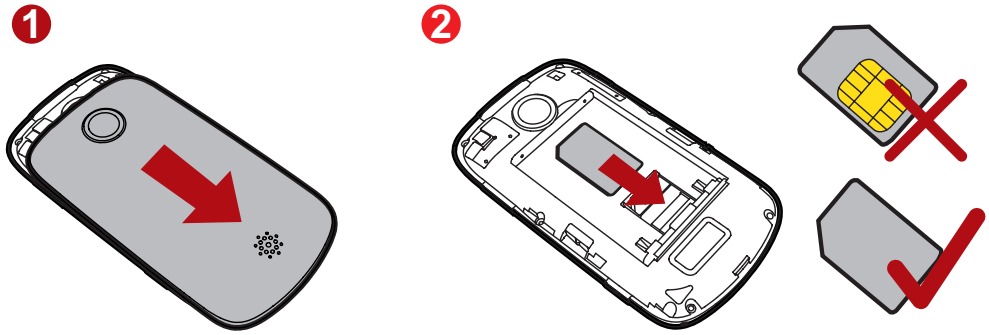


Before Getting Started

3

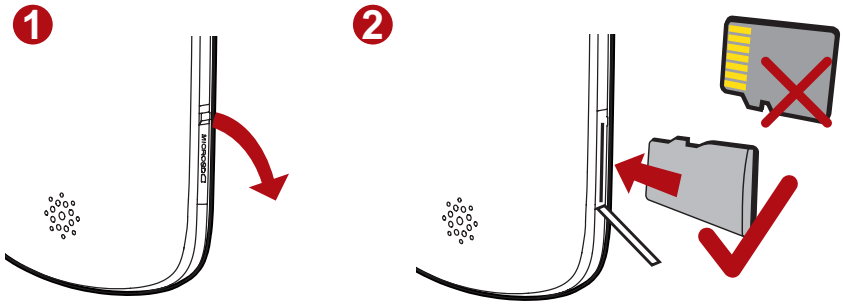
Installing the SIM Card

❶ ❷

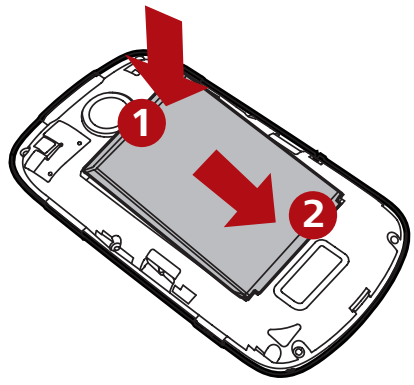


Installing the microSD Card

❶ ❷



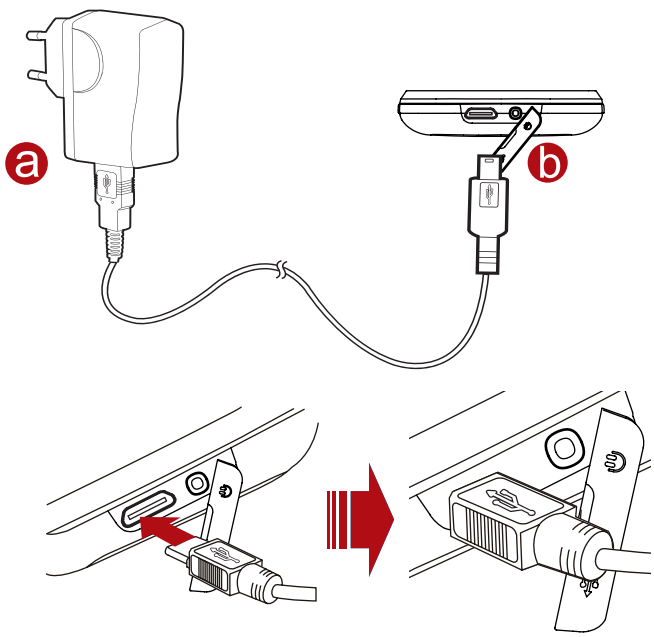
Installing the Battery



Charging the Battery

4

Before charging the battery, make sure that the battery has been properly inserted into your mobile phone.



1. Connect your USB cable to your mobile phone, as shown in **a**.

2. Connect the other end of the cable to the charger, as shown in **b**.

3. Plug the charger into a power socket.

The phone starts charging, with the charging icon displayed in animation on the screen.

Setting up Your Phone

5

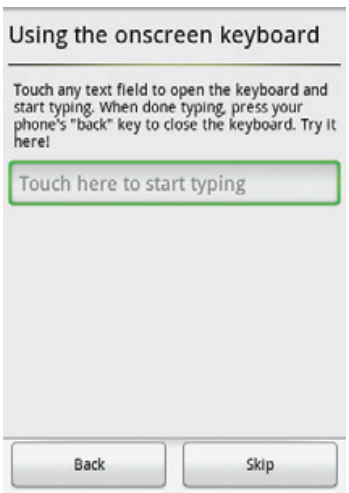
Powering On or Off Your Phone

- Press ⏻ to power on your phone.
- Press and hold ⏻ to open the Phone options menu. Then touch Power off > OK to power off.

Setting up Your Phone

The first time you power on your mobile phone, the phone displays a setup wizard to instruct you to set the phone, including:

- Using the onscreen keyboard
- Setting up your accounts
- Other important settings



Using the onscreen keyboard
Touch any text field to open the keyboard and start typing. When done typing, press your phone's "back" key to close the keyboard. Try it here!

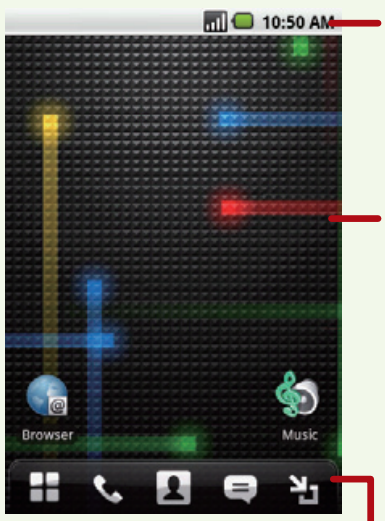
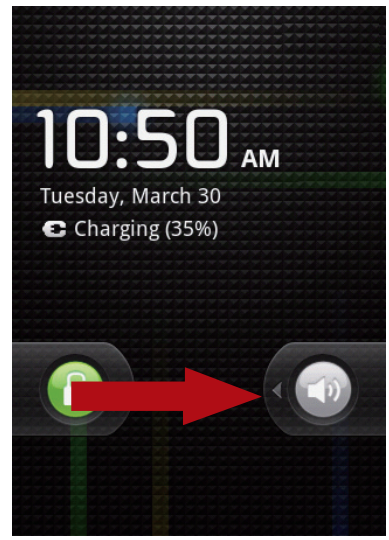
Your Canvas Screen

6

Canvas Screen View





Locking the Screen

- When your mobile phone is on, press ⏻ to lock the screen.
- If you leave your phone idle for a while, the screen will lock automatically.

Unlocking the Screen

Press the ⏻, MENU or 🖼 to wake up the screen. Then unlock it by doing any of the following:

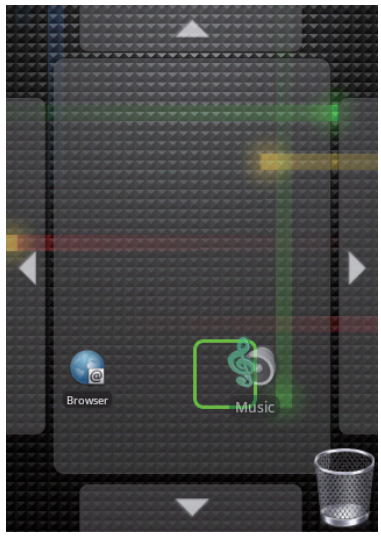
- Press the MENU to unlock the screen.
- Drag the lock icon from left to right to unlock the screen.

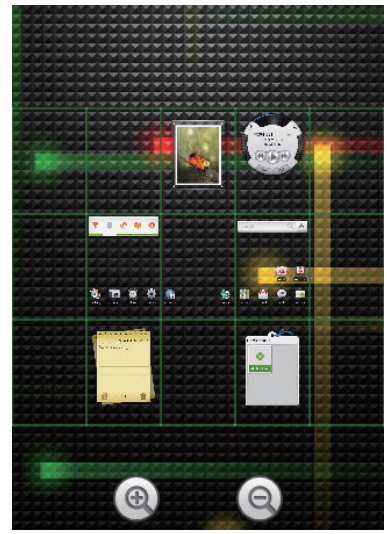
Expand the Canvas

7

The Canvas is a desktop which you can freely define and expand. You can do the following things on the Canvas desktop:

- Expand your screen display in any direction.
- Customize the Home screen.
- Create and arrange shortcuts.
- Create and arrange widgets.
- Create and arrange folders.
- Define and switch between wallpapers.

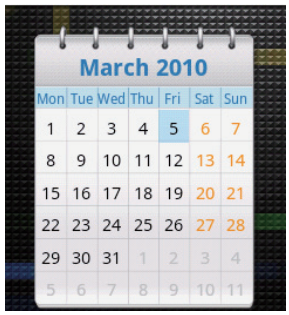


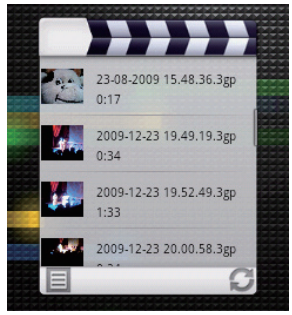


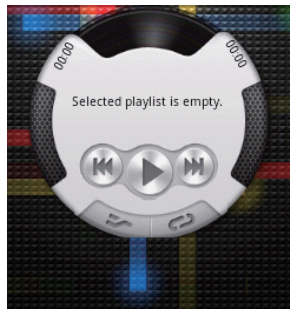
Widgets

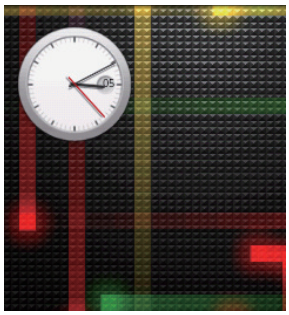
8

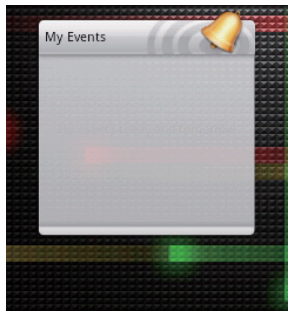
A widget works as a shortcut to let you preview or use an application.
You can stick widgets on your desktop as icons or preview windows.
Besides the default widgets installed on your phone, you can also download more from Android Market.

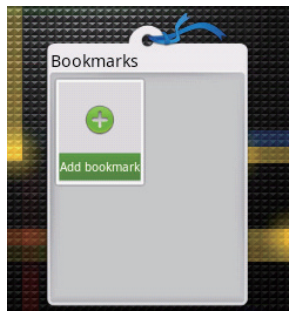










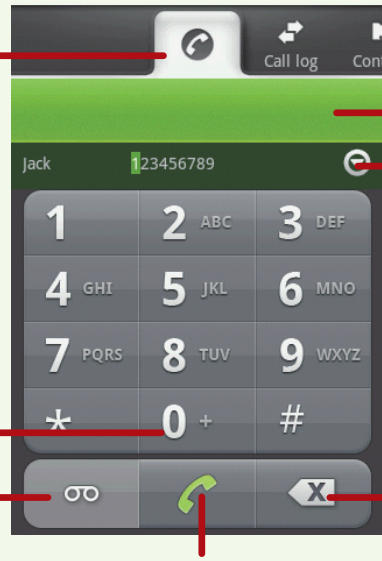


Calling

9

Dialer

Touch > Dialer to display the dialer.



Touch to switch among Phone, Call log, Contacts, and Favorites.

Displays the number you enter.

Touch to browser all the matching contacts.

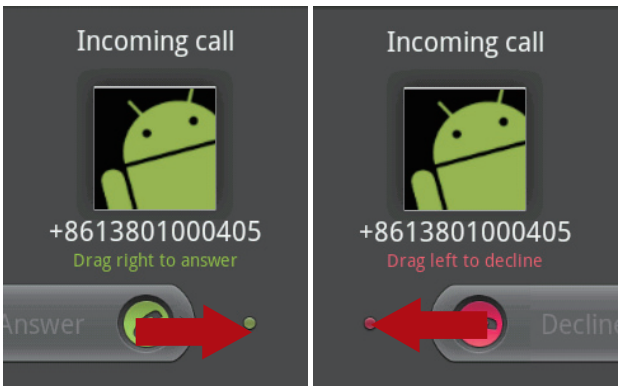
Touch and hold to enter +.

Touch to make a voicemail.

Touch to erase numbers.

Touch to dial.

Answering or Rejecting an Incoming Call



Answering:

- Press to answer the call.
- Drag to the right.

Rejecting:

- Press to reject a call.
- Drag to the left.

Entering Text

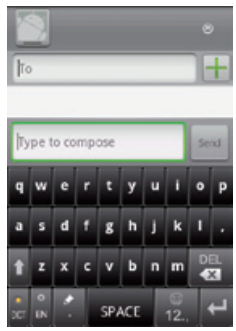
10

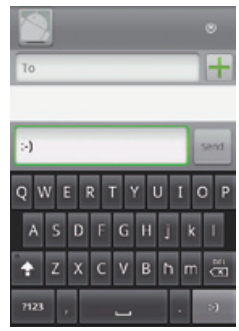
Using the Onscreen Keyboard

- On the Canvas screen, press and hold the MENU to show the keyboard.
- Touch the space where you write text to show the keyboard.
- Press to hide the keyboard.

Switching the Input Method

Touch and hold the space where you write your text until the Edit text menu is displayed. Touch Input Method.



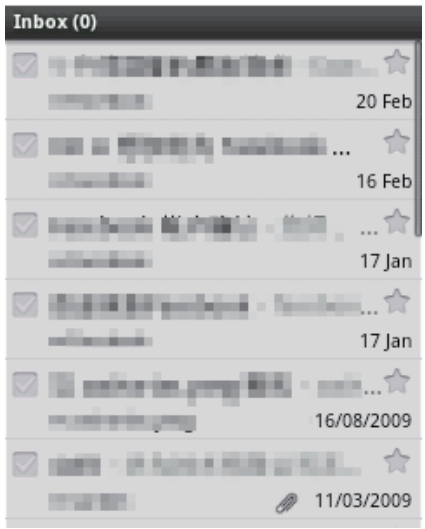


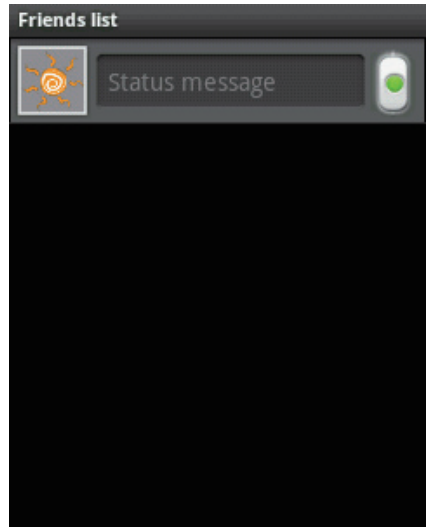
Switching TouchPal Keyboard Layout

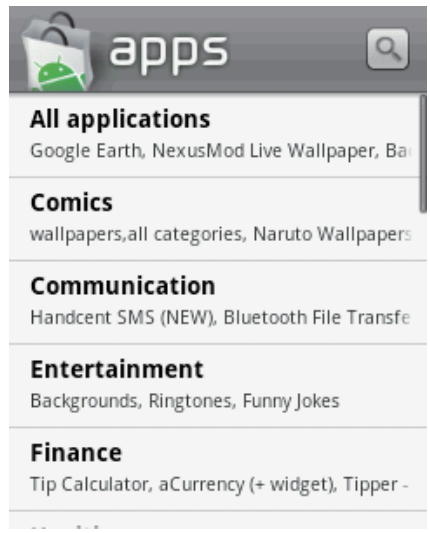
Google Services

11

Google provides you various excellent services, such as Talk, Gmail, Market, and Maps.





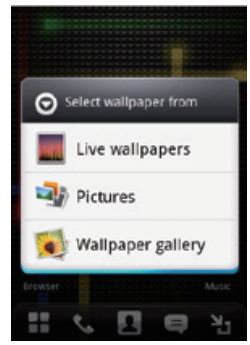


Personalizing Your Phone

12

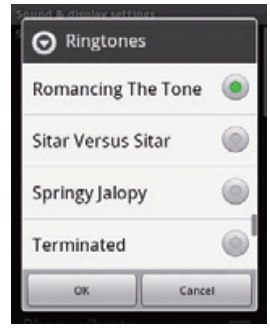
Changing the Wallpaper

On the Canvas screen, press MENU , and then touch **Wallpaper**. In the options menu, select a picture application. Select the wallpaper you want to use.



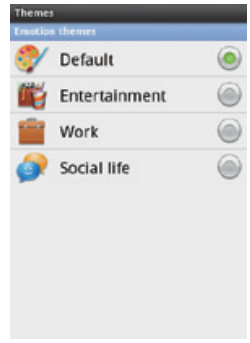
Changing the Ringtone

On the Canvas screen, press MENU , and then choose **Settings** > **Sound & display** > **Phone ringtone**. Select the ringtone in the list and then touch **OK**.



Changing the theme

On the Home screen, press MENU , and then choose **Themes**. Select the theme you want to use.



Important Safety Information

13

Operating Environment

- The device complies with the RF specifications when thedevice is used near your ear or at a distance of 1.5 cm from your body. Ensure that the device accessories such as a devicecase and a device holster are not composed of metal com-ponents. Keep your device 1.5 cm away from your body tomeet the requirement earlier mentioned.
- Keep the ambient temperature between -10°C and 45°Cwhile the device is being charged. Keep the ambienttemperature between -10°C to 45°C for using the devicepowered by a battery.

Certification Information (SAR)

This device meets guidelines for exposure to radio waves. Your device is a low-power radio transmitter and receiver. As recommended by international guidelines, the device is designed not to exceed the limits for exposure to radio waves.These guidelines were developed by the independent scientific organization International Commission on Non-Ionizing Radiation Protection (ICNIRP) and include safety measures designed to ensure safety for all users, regardless of age and health.
The Specific Absorption Rate (SAR) is the unit of measurement for the amount of radio frequency energy absorbed by the

body when using a device. The SAR value is determined at the highest certified power level in laboratory conditions, but the actual SAR level of the device when being operated can be well below the value. This is because the device is designed to use the minimum power required to reach the network.
The SAR limit adopted by USA and Canada is 1.6 watts/ kilogram (W/kg) averaged over one gram of tissue. The highest SAR value reported to the FCC and IC for this device type when tested for use at the ear is 0.662 W/kg, and when properly worn on the body is 0.474 W/kg.
The SAR limit also adopted by Europe is 2.0 W/kg averaged over 10 grams of tissue. The highest SAR value for this device type when tested at the ear is 0.719 W/kg.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.If this equipment does cause harmful interference to radio or television reception,which can be determined by turning the equipment off and on, the user is encouraged to try to correct the inter-ference by one or more of the following measures:
--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and receiver.
--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--Consult the dealer or an experienced radio/TV technician for help.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Caution: Changes or modifications made to this device not expressly approved by Huawei Technologies Co., Ltd. may void the FCC authorization to operate this device.

Disposal and Recycling Information

This symbol on the device (and any included batteries) indicates that they should not be disposed of as normal household garbage.
Do not dispose of your device or batteries as unsorted municipal waste. The device (and any batteries) should be handed over to a certified collection point for recycling or proper disposal at the end of their life. For more detailed information about the recycling of the device or batteries, contact your local city office, the household waste disposal service, or the retail store where you purchased this device. The disposal of this device is subject to the Waste from Electrical and Electronic Equipment (WEEE) directive of the European Union. The reason for separating WEEE and batteries from other waste is to minimize the potential environmental impacts on human health of any hazardous substances that may be present.

Reduction of Hazardous Substances

This device is compliant with the EU Registration, Evaluation,Authorisation and Restriction of Chemicals (REACH) Regulation(Regulation No 1907/2006/EC of the European Parliament andof the Council) and the EU Restriction of Hazardous Substances(RoHS) Directive (Directive 2002/95/EC of the EuropeanParliament and of the Council). For more information about theREACH compliance of the device, visit the Web sitewww.huaweidevice.com/certification. You are recommended to visit the Web site regularly for up-to-date information.

EU Regulatory Conformance

CE 0682 !

Hereby, Huawei Technologies Co., Ltd. declares that this deviceis in compliance with the essential requirements and otherrelevant provisions of Directive 1999/5/EC.
For the declaration of conformity, visit the Web sitewww.huaweidevice.com/certification.
Note: Observe the national local regulations in the location where the device is to be used. This device may be restricted for use in some or all member states of the European Union (EU).
Note: This device may be operated in all member states of the EU.
France: Outdoor use limited to 10 mW e.i.r.p. within the band2454-2483.5 MHz.

Italy: For private use, a general authorisation is required if WAS/RLAN’s are used outside own premises. For public use, ageneral authorisation is required.
Luxembourg: General authorisation required for network andservice supply.
Norway: This subsection does not apply for the geographicalarea within a radius of 20 km from the centre of Ny-Ålesund.
